Subject: Slurry Chat

Department: Public Works

As part of our annual street maintenance program, we apply slurry seal to those streets that have a reasonably good surface but need to have the asphalt rejuvenated. The slurry seal material is a mixture of liquid asphalt and slurry chat.

We solicited bids from three area vendors for Type-2 Slurry Chat. Two vendors responded with the following results:

**Bingham Sand & Salt**

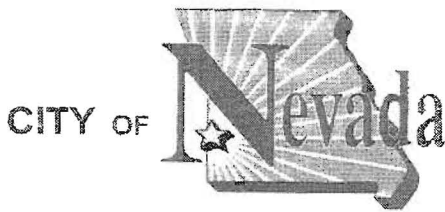

Rock Type		Price per ton (delivered)
TYPE	1	\$24.40
TYPE	2	\$24.40

**Kunshak Chat & Coal Inc.**

Rock Type		Price per ton (delivered)
TYPE	1	\$28.50
TYPE	2	\$28.50

No response from Holiday Sand and Gravel Co.

Bingham Sand & Salt came in with the lowest bid of \$24.40 per ton delivered.
