TO: JD Kehrman, City Manager

FROM: Shawn Middendorf, Local Manager (Alliance Water Resources)

RE: **CITY CAPITAL PURCHASE**  
**Water Distribution/Sewer Collection**  
**Excavation Shoring Equipment**

Existing shoring equipment is suited for ideal situations like new main installations when working in trench depths greater than five feet. However it is very heavy, bulky and difficult to maneuver in tight spaces such as water main breaks, sewer main/man hole repair projects, or in situations where other utilities are located within the same excavation. When the existing shoring cannot be used, operators must bench or slope trench walls to maintain a safe work environment, increasing the cost of backfilling and surface repair to follow. I am recommending the purchase of a more versatile type of shoring system to enhance employee safety, maneuverability, and efficiency.

Quotations as follows:

Pronal – USA, Inc.	\$7,500
United Rentals	\$7,640
Schulte Supply, Inc.	\$8,436

At this time, I am requesting approval to purchase one shoring system from the low bidder, Pronal - USA, Inc., in the amount of \$7,500. This is a budgeted item to be expensed from City funds line item 500-5-4201-320.

If you have any questions, please contact me.

Cc: Gary Johnson, file
