AGENDA ITEM

March 19, 2024

Subject: 7.5 Pump Purchase

Department: Wastewater Treatment Plant

We had a Sludge pump fail and upon getting a repair quote it was determined due to the cost and warranty comparison, a new pump was the better option.

We purchased two new backup Flygt pumps in 2021 for \$28,000 (\$14,000 each). One was put into service and the other stored as a backup. The backup pump was installed when the current pump failed.

IE Electric	\$16,013.64
JCI	\$14,184.02

Recommendation: : Purchase a new 7.5 hp RAS pump from the low bidder JCI for \$14,184.02.

Manager Notes:

- The bid to only repair the pump was \$9,831.71.
- Rebuilt pump carries a 1-year warranty and the new pump carries a 5-year warranty.
- There are two return Sludge pumps operating 24/7. These take sludge from the clarifier and return the material to the oxidation ditch. Two pumps are operating. This will serve as a backup.
