Subject: Rapid Intervention Team Pak

Department: Fire Department

Department Notes:

- The Nevada Fire Dept currently has a Scott RIT Pak (Rapid Intervention Team) that is 20 yrs old. The 2024 annual check of the RIT Pak was failed by a Scott Technician, it was failed due to a bad hose. He stated that our current RIT Pak is obsolete and he can't get parts for our current one.
- The RIT Pak is a vital life safety piece of equipment that we bring into a fire when a firefighter runs out of air or has an SCBA malfunction. We are able to refill his pak or transfer his breathing hose to the RIT pak if his SCBA malfunctions.
- We are requesting to purchase (2) of them. One for our city engine and one for the rural engine. NFD recently taught class to 3M firefighters and with the money that was obtained from that will cover 80% of the cost of the RIT paks.
- This is a sole proprietor bid
- This is not a budgeted item however, we received additional funding from a training at 3M that will cover these items.
