AGENDA ITEM

April 1, 2025

Subject: Camera Bid

Department: Community Center

Department Notes: The Community Center is needing new cameras for the whole building. We currently only have half of our facility covered as our current system quit and is not able to be repaired. With the new camera system, the software will be stored at the Nevada Police Department. The reason for moving the software is it will be in a secure area and when there is an incident the Police Department will have access to get the footage. The Community Center will have the same abilities to monitor and watch the cameras. The only thing that is different is the software will be stored inside the Police Department. The cost came under budget.

iNetVisions LLC: All new cameras, hardware, and labor are \$28,898.00
