Subject: Slurry Chat

Department: Public Works

As part of our annual street maintenance program, we apply slurry seal to those streets that have a reasonably good surface but need to have the asphalt rejuvenated. The slurry seal material is a mixture of liquid asphalt and slurry chat.

We solicited bids from three area vendors for Type-2 Slurry Chat.

Bingham Sand & Salt  
Kunchat Chat & Coal Inc.  
Holiday Sand & Gravel Company.

One vendor responded with the following results:

## **Bingham Sand & Salt**

Rock Type	Price per ton (delivered)
1	\$29.25
2	\$29.25

Bingham Sand & Salt came in with the bid of \$29.25 per ton delivered.

Pricing Sheet
