TO: JD Kehrman, City Manager

FROM: Eric McPeak, Local Manager (Alliance Water Resources)

RE: **CAPITAL IMPROVEMENT PURCHASE**

Waste Water Treatment Plant UV System Lamps & Components

The UV System at the WWTP contains 2 flow channels, with 2 banks of 24 bulbs in each channel for a total of 96 bulbs. In 2012 a new hydraulic system center was installed which allows independent operation of each channel. At a minimum, one bank operates 24/7 during disinfection season (April 1- Oct. 31), additional banks will activate as flow increases to meet disinfection demand. UV bulbs and system components are normal wear items and will need to be replaced on a maintenance schedule to remain in compliance with NPDES E.coli limits.

Quotation as follows:

Ray Lindsey Co. ----- \$9,338.62 (freight included)

At this time, I am requesting approval to purchase 24 UV lamps and system components from the sole source vendor, Ray Lindsey Co., in the amount of \$9,338.62. This is a budgeted item to be expensed from City funds budget line item 500-5-4225-234.

If you have any questions, please contact me.
