Subject: Fire and Smoke Detection Alarms

Department: Parks & Recreation

The Parks and Recreation Department's Community Center recently underwent an inspection by the state Fire Marshall's office in preparation for state licensing of a proposed after-school program beginning this fall. The inspection concluded the necessity of adding: smoke detectors to the south-side hallways, game room and community rooms, and strobe alerts in adjoining spaces, all of which would need to be hard-wired into the existing fire control panel.

While meeting with the potential contractor, it was pointed out that two of the three community rooms lacked horn/strobe warning alarms, which are required when the partitions are closed. We are therefore not in compliance.

Marmic Fire and Safety maintains the current fire control system, and has submitted the following quotation as a sole-source provider for our system:

Vendor	Total Bid
Marmic Fire & Safety Systems	\$6,307.94

The City Manager has authorized proceeding, in light of our non-compliance.
