Subject: Prescription Drug Monitoring Program Renewal Agreement

Department: Administration

The St. Louis County Prescription Drug Monitoring Program (PDMP) monitors the prescribing and dispensing of schedule II-IV controlled substances to assist in the identification and prevention of prescription drug misuse and abuse.

The program's goals are to:

- Improve controlled substance prescribing by providing critical information regarding a patient's-controlled substance prescription history;
- Inform clinical practice by identifying patients at high-risk who would benefit from early interventions;
- Reduce the number of people who misuse, abuse, or overdose while making sure patients have access to safe, effective treatment.

Missouri remains the only state in the nation without a statewide database. In 2017, St. Louis County launched a PDMP in which more than 75 Missouri jurisdictions participate, covering about 85% of the state's population

The City of Nevada joined in 2017 with the passage of Ordinance 8150. Participation will be voluntary as to prescribers but mandatory as to dispensers, and that all applicable federal, state and local laws and ordinances will be applied and adhered to responsibly protect the privacy rights of the citizens of this community.

The attached agreement renews our participation in the St. Louis County Prescription Drug Monitoring Program (PDMP) which expires October 28, 2021.
