BL & SONS DISPOSAL  
2812 SW COUNTY RD 6508  
RICH HILL, MO 64779

Dear Business Owner,

The City of Nevada Planning Commission is currently researching the efficiency of trash and recycling collection services within the city limits.

Trash Collection in Nevada is currently performed by 4-5 private trash hauling companies under an open-market system. Following the direction from City Council to investigate trash collection issues such as noise, safety, congestion, and wear-and-tear on streets, City staff along with the planning commission are analyzing the current collection system. It has been suggested to move to one or two trash haulers to provide uniform services and rates throughout the community.

There will be a meeting on Tuesday, May 9 @ 5:15pm and the Planning Commission would like to hear from you, as a trash hauler, working within the City of Nevada. We request that you attend this meeting to address your questions and concerns regarding the suggestions above.

Sincerely,

Mary Wilson  
Executive Assistant
